

# BAGO Forest Classic

SATURDAY 24<sup>th</sup> March 2012

## Service Area Map & Instructions

Pipe King – Southern Cross Rally Series  
Australian 2WD Rally Master Series  
Northern NSW Rally Series  
AMSAG Rookie Series

**SOUTHERN CROSS  
RALLY SERIES**

# NOTICE TO ALL CAMPERS

Welcome to all campers. We have been lucky enough to have secured the Kendall Show grounds to allow competitors and service to the convenience of camping if they wish. We would like nothing more than for you to enjoy your rally and stay in a very sociable venue, but we have just a few instructions we would like you to be kind enough to take note of.

Camping fees are cheap, FREE. We have included this into the event entry fee. This includes hot showers and power. The Kendall show grounds have a NO NOISE policy after 11.00pm, this doesn't mean you can't stay up and have a drink with your mates BUT it does mean, NO loud music, NO late night tuning to see why your car stopped during the event. So please keep noise to a minimum.

The Toilet and shower blocks will be open to use, please be mindful to other users and clean up after your-self.

The Kendall Show ground society will have the canteen open for Breakfast and lunch. The Hastings Sporting Car Club will be running a BBQ for competitors and officials after the event, this also will be free.

## OH&S Advice for Entrants and Service Crews

*AMSAG wish to remind you that WorkCover NSW legislation deems a Rally Service Park to be a NSW Workplace. Therefore, all of the workplace and OH&S practices that we observe everyday in our regular working environment, must also be observed and practiced at all times within the Service Park.*

*All personnel are asked to assess the risks associated with any practice that they are involved with, and take action to minimise the potential injury to themselves and any other personnel.*

*As the Entrant, you have a Duty of Care for the health and safety of those people who might be affected by the activities of your team whilst at the rally. These people may include the members of your competing crew, service crew, spectators and the general public. You may be held liable for the damage to property or injury to personnel should suitable assessment and risk minimisation practices not be followed.*

*Some examples of risks might be:*

- *The use of electrical power. High voltage cords and appliances should have a current safety inspection tag, and be used with a tagged safety switch.*
- *When using jacks or jack stands, use equipment that is suitable for the job, and ensure that the vehicle is at all times properly secured. Getting underneath a vehicle that is only supported by a jack is serious risk, and should never be attempted.*
- *Re-fuelling may be conducted within your own work environment, however, a suitable and approved fire extinguisher should be nearby while refuelling. It is recommended that this extinguisher be manned during the re-fuelling operation. A notice of the danger of the refuelling activity – from mobile phones, heat, cigarettes and other ignition sources – should be erected to warn all personnel not involved with the activity to stay well away.*
- *To minimise the risk of damage to the environment, a liquid proof ground cover must be beneath the car during all servicing and re-fuelling operations. Be prepared to mop up any liquid spills immediately to avoid contamination of the ground, and report any such contamination to the attending official or Rally Control without delay.*
- *Personal Safety Clothing should be worn by all personnel to minimise risk or injury. This may involve clothing with long sleeves, fire proof materials, gloves, ear protection and/or safety goggles/glasses.*
- *Due to the hazards that can be associated to smoking, including the ignition of flammable liquids and gases within the service park, AMSAG strongly discourage smoking by all persons within the service park during the entire event.*

*You should consider the risk in all situations, and ensure that you manage all of your activities at the event and be prepared to demonstrate that you have considered these risks and put the appropriate safety measures in place.*
